

# Can Your Firefighters Find Your Home?

The lack of rural addressing is a problem in our Fire District. Imagine the frustration of your firefighters when they arrive at a row of 7 or 8 mailboxes on one driveway. How do we know where to find you? Proper identification of your property can be the difference between saving and losing your home.

## We can find you with this address marker!

Washington County Fire District #2 offers a 6 x 12" marker with reflective numbers on one side. The cost of the marker is \$12.00 and will be installed by a District No. 2 firefighter\*

*\*Markers are generally installed the last week of each month*
